

# DEBIT ORDER EXTENSION FOR Case Manager

## QUICK AND EASY COLLECTIONS

### SIMPLIFY DEBIT ORDER ARRANGEMENTS

#### Managing debit orders with a smile

The Debit Order Extension provides collection agents with the necessary tools to effectively and easily manage, maintain and automate debit order submissions and collections in Case Manager.

### EFFORTLESS AUTOMATION

#### Systematic workflow keeping you informed and organised

Managing failed debit orders is a piece of cake with the Debit Order Extension's automated workflow. Debit Order instalment status updates automatically change the corresponding case's Case Manager process accordingly.

### SUPERIOR SERVICE PROVIDERS

#### Executing debit order submissions and collections on your behalf

The Debit Order Extension is affiliated with various leading service providers for the effectuation of debit order submissions and collections (EFT and NAEDO) via Case Manager. You needn't lift a finger.

### SAVE TIME AND EFFORT

#### Cutting through the red tape

The Debit Order Extension is tailored to act as an intermediary to suit your company's specific needs to ensure that you can collect the necessary funds without being subject to prolonged waiting periods and laborious discussions with banks.

### EXPEDITE EFFICIENCY

#### Bulk actions in a jiffy

Bulk action capabilities allow you to effectively make bulk changes to instalments and execute bulk submissions quickly and conveniently.
